
Julian Pastarmov

Engineering leader across enterprise browsers and AI security

Villmergen AG, Switzerland | pastarmovj@gmail.com | +41 79 749 93 44 | [LinkedIn](#)

PROFESSIONAL SUMMARY

Engineering Leader at Lakera.ai with 15+ years of proven success at Google, specializing in enterprise solutions, strategic product innovation, cloud management, and cross-functional leadership. Recognized consistently within Google's top 10% of managers for strategic impact, mentoring, and team development. A fast learner and intuitive strategist, passionate about building teams that deliver scalable solutions used by millions globally.

Work isn't separate from life; it's an essential part of it. Embrace work you love - otherwise, you're missing out on living fully.

KEY EXPERTISE

Strategic Leadership | Technical Advisory | Enterprise Software | Cloud Solutions | Complex Systems Architecture | Team Mentorship & Development | Rapid Learning | Strategic Decision Making

PROFESSIONAL EXPERIENCE

Group Engineering Manager - AI Security

Lakera.ai, a Check Point company | Zurich, Switzerland | March 2026 - Present

- Leading Agent Application Security, responsible for making AI-agent applications secure and deployable in real-world enterprise environments. The work spans agent risk and governance, runtime-security APIs and AI-gateway integrations, as well as self-hosted and air-gapped deployments.
- Bringing together the security platform and deployment capabilities customers need to operate AI agents safely - from assessing risk to enforcing protection in production.

Software Engineering Manager - Chrome Browser Enterprise

Google | Zurich, Switzerland | June 2019 - February 2026

- Strategic advisor to Chrome Enterprise leadership, guiding product vision and execution.
- Led the launch and global adoption of Chrome Browser Cloud Management.
- Enhanced privacy transparency in Chrome Enterprise, supporting trust across regulated industries.
- Built, mentored, and developed high-performing teams, achieving top internal management rankings.

Senior Software Engineer - Chrome Browser Enterprise

Google | Munich, Germany | May 2016 - May 2019

- Led enterprise-focused enhancements, supporting Chrome's adoption in complex virtualized environments.
- Facilitated large-scale integration of Legacy Browser Support, streamlining IT modernization for enterprises.

Software Engineer & Tech Lead - Chrome, ChromeOS

Google | Munich, Germany | November 2010 - April 2016

- Contributed from the beginning to Chrome's adoption by enterprise users, reaching millions globally.
- Developed products including Chrome Sign Builder and ChromeOS enterprise enrollment tools.

Researcher & Engineer - Computer Vision, Virtual/Augmented Reality

Fraunhofer IGD & German Research Center for AI | Darmstadt & Kaiserslautern, Germany | March 2004 - September 2010

- Researched and developed high-performance algorithms and data structures.
- Optimized massively parallel graphical data processing.

EDUCATION

Vélíkoturnovski universitet 'Sv. Sv. Kiril i Metodi'

Doctor of Philosophy (PhD), Computer Science

2015 - 2017

Grade: maxima cum laude

Camera tracking and 3D reconstruction for AR applications for historical sites.

Technische Universität Darmstadt

Master of Science (MSc), Mathematics and Computer Science

2003 - 2008

Thesis: Image-Based 3-D Reconstruction Using Context and Probabilistic Learning Methods, TU Darmstadt / Fraunhofer IGD Darmstadt (2008).

Bachelor of Science (BSc), Mathematics and Computer Science

2003 - 2008

Thesis: Supporting Convenient Interface for Linear Programming, Siemens AG Munich (2007).

Activities and societies: KStV Moenania Starkeburg im KV zu Darmstadt.

CERTIFICATIONS

Structuring Machine Learning Projects - DeepLearning.AI (2025)

Sequence Models - DeepLearning.AI (2025)

Convolutional Neural Networks - DeepLearning.AI (2025)

Improving Deep Neural Networks - DeepLearning.AI (2025)

Neural Networks and Deep Learning - DeepLearning.AI (2024)

SKILLS

Strategic Leadership | Product Innovation | Cloud Solutions | Technical Advisory | Mentorship & Coaching | Machine Learning | Complex Systems Architecture | Software Engineering
